Quality, Economy -Affordability

E

Established in 1982, steady progression has allowed LPD Electronic Services to develop a range of subcontract capabilities suited to the many requirements of small and large businesses. It is our policy not to over sell any of our services but to commit to a continuity in keeping with our clients existing style and expectation.

From enquiry to quotation, to implementation and through to after sales support, **a prompt, professional and caring response is assured** presenting our customers with a minimum of disruption and procurement costs.

**** Printed Circuit Services**

**** Electronic Fabrication**

**** Functional Test Facilities**

**** Electronic Maintenance**

**** Burn-in Equipment**

**** Industrial Software**

T

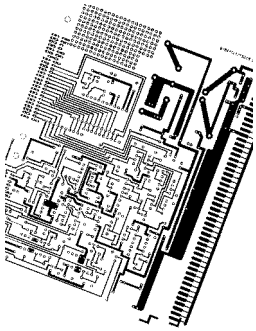

The categories listed above are some of the wide range of capabilities LPD is able offer your business.

We are promoting the recognition we have achieved as a **dependable single source supplier** of industrial electronic goods and services.

For further information and advice on any LPD products, our technical staff are readily available to take your enquiry.

LPD Electronic Services Ltd

Electronic Systems and Printed Circuit Engineering

ECONOMY WITHOUT COMPROMISE: Meeting your requirements

Printed Circuit Engineering

- ** PCB Layout Design
- ** Photomaster Production
- ** PCB Manufacture & Procurement
- ** Full Materials Procurement
- ** Component Sourcing
- ** Assembly and Wiring
- ** Ultrasonic Cleaning
- ** Functional Testing
- ** Test Jig Design & Manufacture
- ** Repairs & Modification

** Low Volume Economy a Speciality

**Fast Response

For quality services at affordable prices delivered on time:

LPD Electronic Services Ltd

Electronic Systems and Printed Circuit Engineering

QUALITY with ECONOMY: A complete affordable service

Electronic Fabrication & Wiring

- ** Electronic System Design & Build
- ** Printed Circuit Board Assembly
- ** Module Construction & Wiring
- ** Custom Wiring Looms & Cables
- ** Panel & Cubicle Fitment & Wiring
- ** Power Supplies
- ** Component Procurement
- ** 19" Rack & Chassis Fitment
- ** Front Panel Layouts
- ** Metal Machining & Fabrication
- ** Printed Circuit Engineering
- ** Industrial Software Services

For a prompt response and quality products:

Electronic Systems and Printed Circuit Engineering

TRUE AFFORDABILITY: Meeting your requirements

Functional Electrical Testing

- ** Custom Test Jigs & Interfaces
- ** Test Consoles & Enclosures
- ** 'Bed of Nails' Fixturing
- ** Printed Circuit Board Design
- ** IEEE-488 Bus Controlled Systems
- ** Burn-in Endurance Systems
- ** Power Supplies
- ** System Integration
- ** Test Socket Customisation
- ** Repair & Maintenance

- ** Manual and Automatic Functional Testing
- ** Test and Measurement Software
- ** Low Volume Economy with Fast Response

Electronic Systems and Printed Circuit Engineering

Our service to industry

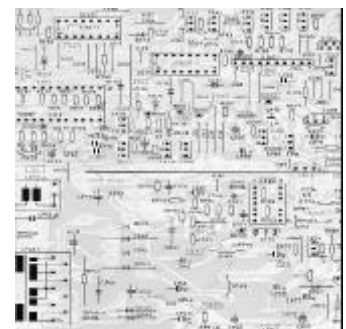

Electronic Equipment Maintenance

- ** Production & Process Plant Repairs
- ** Power Supplies
- ** Instrumentation
- ** Temperature Controllers
- ** PCB Repair & Modifications
- ** Component Sourcing
- ** Ultrasonic Cleaning
- ** Metalworking Facilities
- ** Printed Circuit Prototyping
- ** Industrial Software Services

** Device Programming

** Fast Response
